ANNEX 'A'

EXPLANATORY MEMORANDUM - 6

I. Procedure for migration of subscribers from one category to another

- 1. The Telecommunication Tariff Order(TTO) 1999, states as follows:
 - "The Procedures for migration of subscribers from one category to another (i.e. low user subscribers to general user subscribers, and vice versa) on the basis of the extent of usage usage will be notified before 30 September, 1999, as this issue becomes relevant only with effect from 1 April, 2000".
- 2. A need for this clarification arises because from 1 April, 2000, higher monthly rentals are specified in TTO 1999 for general user subscribers in comparison to low user subscribers.
- 3. When TTO 1999 was issued, rentals were charged as advance. Subsequently, rentals are being charged by the Department of Telecommunications at the end of the billing cycle. With this method of charging rentals, the categorization of low user subscribers and general user subscribers in a billing cycle becomes straightforward, based on the extent of usage by the subscriber.

II. Tariffs for Centrex

4. Tariff for "Centrex" services had not been prescribed by the Authority in it's TTO 1999. A new tariff category has been added for "Centrex" in Schedule I for Basic Services (other than ISDN). Centrex services are being offered for the first time in September 1999. This is Item 18-II. The Authority has decided that tariffs for this service shall be subject to forbearance at the present time
