

30th April 2010

To
Telecom Regulatory Authority of India
New Delhi
India

To Whom it may concern.

I would like to record the support of Shenzhen Guo Wei Electronics Co Limited's support for the allocation of frequencies in the in 1880-1920 Ghz waveband for the use of cordless DECT telephones. As a manufacturer we are selling products using analogue technology in India but we support the technical appraisal of the CTO of the DECT Forum which argues persuasively, in our opinion, for the release of frequencies for digital cordless phones.

Yours faithfully

A handwritten signature in black ink that reads 'Stanley Game'.
