Thanks & Regards  
Nitin Kumar  
Website Facilitator

1. All Telecom companies must adopt same validity period say 30 days, 60 days, 90 days and 365 days and also data so that amount charged by them can be compared.

2. In our country nothing should be free as people misuse it badly. Telecom companies can fix a ceiling on free calling minutes per day say 100 minutes. It will ease the pressure on Mobile Network and people will not use the facility.

3. There can be 2 basic plans and in these 2 basic plans about 75 % subscribers will be covered.

a. Amount say Rs.60-70 , Validity period 30 days, Ceiling on calling minutes per day say 60-70 minutes and NO DATA.

b. Amount say Rs.120-130 , Validity period 30 days, Ceiling on calling minutes per day say 100 minutes and Data say 300 MB per day.
