Finally thankyou for bringing this consultation paper.

As a consumer I welcome if Tariff validity can be normalized to 30 day and multiple following best industry practices.

Current practice of having validity as 28 days, 24days, 81 days and 336 days are so anti consumer and makes it very difficult to calculate the real benefits

A shorter duration plan can be with validity of 2/5/10 days

But most plan vouchers must have validity as 30 days.

Thanks
