New Delhi – 110002

Subject: Interconnection Usage Charges

Sir,

Season Greetings!!

We were waiting for historical date when TRAI would once again abolish old system of IUC and give further relieve to customers of Indian Telecom Industry. But extending the life of IUC charges will only help outdated technology lover operators having high cost network and continue profit under protection from regulator.

The IUC should be discontinued w.e.f. 01/01/2020 and all operators ideally should be adopted the new technology whereby protection from regulator is not required.

All to adopt latest technology otherwise IUC extension will only delay the process of digitization.

Yours Truly,

Prathvi Chouriya

District – President, Chhindwara
