Subject: Review of IUC by TRAI

Sir,

We are already suffering the consequences of TRAI's new broadcasting regime which has resulted in lesser number of channels for higher charges to favour TV channels and broadcasters.

Now it appears that TRAI is reviewing IUC which was to be removed from 1<sup>st</sup> January 2020. This would result in likely increase of call charges again at the cost of customers.

Telecom regulator is there to safeguard the interest of consumers. TRAI needs to ensure that cost of customers is not increased for the sake of profits to private telecom companies.

We as customers can't continue to face burden of unjustified hike in charges. We request you to kindly put an end to exploitation of consumers in form of IUC continuation.

Please look into the matter .

Your's Faithfully,

Brindaban Pal
