**OPEN HOUSE DISCUSSION ON “REGULATION OF
INTERNATIONAL MOBILE ROAMING SERVICES”**

Issues for Discussion

The discussions will *inter alia* focus on issues such as default option for activation of International Mobile Roaming (IMR) Services, communication of IMR tariff details, and various measures that can be undertaken to protect consumers from bill shocks while using IMR Services. The exact questions raised in the consultation paper and proposed to be discussed are as under.

Question 1: Should not the IMR service remain inactive at the time of issue of the sim till the same is activated by the subscriber as a part of the IMR tariff-selection exercise? Please elaborate your submissions.

Question 2: Should it not be mandatory to communicate the details of activation and applicable tariff immediately by SMS or email on completion of the tariff-selection exercise by the subscriber? Please give your views.

Question 3: Should not the tariff details and related terms and conditions be communicated to subscribers of IMR service by SMS and /or email as soon as the phone is switched on in the visiting country by the subscriber. Please elaborate your views.

Question 4: Please give your views on the significant differences in tariffs for IMR Service under Standard Rates and IR Packs. Furthermore, your views are solicited as to how these two rates can be rationalized.

Question 5: Should not the IR packs apply automatically the moment subscriber's expenses on IMR Services exceed the corresponding daily IR Pack rate unconditionally for all the countries for which the service provider is offering IR Packs?

Question 6: Can IR Packs presently offered for one day duration be used to subscribe for multiple days to avail IMR Service? Whether the TSPs be mandated to permit combination of different IR plans as per requirement of the consumer? Please elaborate your submissions.

Question 7: Why should not the IMR tariff be counted in 24 hour format on the first use of data, making or receiving a call or sending a text message and renewing the charges for only those 24-hour periods in which the services have been used rather than on calendar day basis ? Please elaborate your submissions.

Question 8: In consumer interest why it should not be mandated for the service providers to send updates in respect of the data usage exceeding certain pre-established milestones such as 50%, 80%, 90% and 100% of the data entitlement? Please give your views.

Question 9: Will it not be advisable to mandate the TSPs to inform the subscriber by SMS every time the subscriber lands in a country/area not covered by the IR Pack subscribed, of the fact of roaming in an uncovered zone, and the tariffs applicable thereto? Would the aforesaid requirement suffice or whether alongside this, the TSPs be mandated to keep the mobile data in the inactive mode and activate only in accordance with the directions of the subscriber? Are there any other measures that can be taken to cover the situation as detailed?

Question 10: What are your views on the measures suggested in para 3.21 of the consultation paper to protect the consumer from bill shocks dues to usage of services beyond the pack entitlements? Please provide your views on each of the above measure and suggest additional measures, which in your opinion can be helpful in addressing the issue.

Question 11: Any other issue relevant to the subject discussed in the consultation paper may be highlighted.

For any clarification/information, please contact Shri Kaushal Kishore, Advisor (F&EA) at Tel. No.: +91 11 23230752 and email: advfea1@traf.gov.in
