Subject: Pre-consultation paper on "Ease of Doing Business the Broadcasting Sector"

Respected sir,

We are a news channel Running from last 11 years and we are doing journalism in a very fair and honest way.

Our goal is journalism not making money.

Therefore in last 11 years we have hardly made any money from the channel. Since we are taking the channel for journalism not as a business.

In order to expand our channel we applied the license of the second channel and everything was sanctioned by the department as we are journalism channel not a business channel.

But we could not start the second channel as there is a requirement for starting the channel that we have to submit a bank guarantee of 2 Crore and in case we fail to air the channel in given time, than the security given will be forfeited.

This condition seems to have placed for the benefit of those people who have money legal or illegal **but not for the journalists.**

**Because of this condition all real journalists are unable to enter this field.**

Hence this condition of 2 Crore guarantee is a big hurdle and it needs to be removed.

Regards

S.K Gupta
