Respected sir,

Comments for question. - 30

In this NTO execution TRAI
completely neglected the cable TV operators profits

We cable TV operators facing lots of complications in carry forward the cable TV signals to the end users.

For better quality of service cable TV operators need more profit at least it should be 130 rs

At the same time the retail cost of the monthly subscription should be lesser than DTH monthly subscription

Therefore kindly consider my grievance.

Thank you

Regards,
